# HAMZA AL-SALAYMEH

**ARCHITECTURAL BIM ENGINEER | HERITAGE BIM & SCAN-TO-BIM | BIM COORDINATION**

Revit Architecture | Navisworks Manage | ACC / BIM 360 | ISO 19650 | Scan-to-BIM | Python Automation

Riyadh, Saudi Arabia | Jordanian | Saudi Driving License | +966 599 535 940 | hamzasalaymeh99@gmail.com

## PROFESSIONAL SUMMARY

Architectural BIM professional with 5+ years of AEC experience across Saudi Arabia and Jordan, combining Revit authoring, multidisciplinary coordination, heritage documentation, and Scan-to-BIM workflows. Delivered coordinated architectural BIM documentation within a 500,000 m², 1,400-bed healthcare programme and currently supports a national heritage documentation programme covering 30,000+ sites. Brings a hybrid architectural-civil perspective strengthened by on-site assessment, reality-capture workflows, and engineering automation.

## CORE EXPERTISE

Architectural BIM Authoring | Revit Architecture | Multidisciplinary BIM Coordination | ISO 19650 Information Management | Navisworks Clash Detection | Model QA/QC | RCP & Room Layout Sheets | Revit Families & Schedules | Scan-to-BIM & Point Clouds | Heritage BIM & Adaptive Reuse | ACC / BIM 360

## TECHNICAL SKILLS

**BIM & Coordination:** Autodesk Revit (Architecture & Structure), Navisworks Manage, Revizto, Autodesk Construction Cloud (ACC), BIM 360, IFC workflows, model federation, clash detection, model QA/QC.

**Reality Capture & Heritage:** Autodesk ReCap, Scan-to-BIM, point cloud workflows, existing-condition documentation, heritage asset modeling.

**Architectural Design & Visualization:** AutoCAD, SketchUp, Lumion, V-Ray.

**Automation & Data:** Python, Selenium, pandas, openpyxl, Advanced Microsoft Excel, automated validation, and high-volume documentation workflows.

## PROFESSIONAL EXPERIENCE

### Consolidated Consultants Group for Engineering & Environment (CCG) | Riyadh, Saudi Arabia

**Civil Engineer | Sep 2024 - Present**

*Heritage BIM, Road Safety & Digital Engineering Scope*

- Execute Scan-to-BIM workflows for selected heritage assets, converting survey and point cloud data into coordinated Revit models for documentation, conservation, and digital asset records.
- Develop BIM models supporting the redesign and rehabilitation of heritage farms, contributing to restoration, adaptive reuse, technical coordination, and documentation.
- Conduct on-site assessments of heritage assets to document architectural characteristics, existing condition, visible alterations, and field evidence required for technical documentation and registration.
- Automate heritage documentation workflows with Python/Selenium, recording 7.5x-21x the documented manual reference throughput across comparable tasks and scaling one automated workstream to 5,256 records with built-in validation and exception handling.
- Produce Civil 3D road safety submissions for Riyadh Municipality and conduct iRAP SR4S assessments across 300+ school and mosque zones.

### Salaymeh Group Construction Company | Jordan & Saudi Arabia

**Site Engineer / Architectural Consultant | Jan 2024 - Jul 2024**

- Designed the architectural scheme and coordinated civil/site execution for a 1,700 m² steel-framed date storage facility in Al-Qassim.
- Delivered an interior design package for a Riyadh apartment and supervised a palace landscaping project in Amman and a chalet resort in Ajloun.
- Supervised excavation, manholes, pipe culverts, level control, compaction, structural and block works on residential and infrastructure projects.

**RUBA Engineering & Partners** | **Amman, Jordan**

**Project Team Leader - Security Forces Medical Center Project (MOI-SFMC)** | **Jun 2022 - Sep 2023**

*BIM & Architectural Coordination Scope | Riyadh & Jeddah, Saudi Arabia*

- Coordinated production of annotated, submission-ready Revit documentation within a 500,000 m², 1,400-bed healthcare programme.
- Coordinated reflected ceiling plans with MEP and low-current disciplines and supported resolution of interdisciplinary design interfaces before submission.
- Reviewed federated multidisciplinary information, identified coordination issues, supported clash resolution, and maintained structured follow-up of model comments.
- Developed Room Layout Sheets and project-specific Revit families in accordance with client and project standards.
- Delivered coordinated architectural packages covering space planning, finishes, furniture layouts, door-hardware strategy, schedules, and detailed enlargements.

**Douar Architects and Engineers** | **Amman, Jordan**

**Architectural Engineer** | **Jan 2021 - Oct 2022**

- Designed three modern villas and produced coordinated design and supervision drawings for two residential buildings using Revit and AutoCAD.
- Produced photorealistic visualizations and walkthroughs in Lumion and V-Ray to support design presentations and client approvals.

## EDUCATION

**M.Sc. in Engineering Management** - Al-Zaytoonah University of Jordan | Expected 2027 (In Progress)
**B.Sc. Civil and Infrastructure Engineering - Al-Zaytoonah University of Jordan**
**Diploma in Architectural Engineering & Interior Design - Al-Balqa' Applied University**

## CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

**Professional Accreditation:** Architecture & Town Planning Qualification Verified - Saudi MHRSD Professional Accreditation Program, Cert. QVP-JOR000531143 (2025)
**BIM & Information Management:** Certified BIM Coordinator - Niqat (2024) | Certified Information Manager Level 2 Advanced Course - Plannerly (2026)
**ISO 19650:** Company Level ISO 19650 Certification Readiness Course - Plannerly (2026) | Revizto Collaboration Essentials (2025)
**Autodesk ATC / Niqat Global:** BIM for Consultants - 200h (2024) | BIM Management - 100h (2023) | BIM Implementation - 50h (2024)
**Additional:** Certified BIM Planner - Niqat (2024) | Professional Project Management - 36 Training Hours, Arab International Academy (2022)
