HAMZA AL-SALAYMEH

BIM Engineer | BIM Coordinator | Revit · Navisworks · Civil 3D · Synchro Pro

Hamzasalaymeh99@gmail.com | +966 599 535 940 | Riyadh, Saudi Arabia | linkedin.com/in/hamza-al-salaymeh-134b781b9 | JEA Member

PROFESSIONAL SUMMARY

BIM Engineer with 5+ years of experience in BIM modelling, coordination, clash detection, and full-lifecycle BIM implementation across mega-scale projects in Saudi Arabia and Jordan. Holds a B.Sc. in Civil Engineering (2024), a Diploma in Architectural Engineering (2021), and is currently pursuing an M.Sc. in Project Management (Expected 2027) — blending deep technical BIM expertise with advanced project leadership. Certified across 7 Autodesk & Niqat BIM programmes including BIM Management, Coordination, Revit, and Navisworks. Delivered BIM scope on a 500,000 m² / 1,400-bed medical complex — one of the largest healthcare BIM projects in Saudi Arabia.

KEY ACHIEVEMENTS

500,000 m²
Mega BIM project delivered
1,400-bed medical complex
Riyadh & Jeddah, KSA

300+ Schools
Road safety programme
traffic engineering & geometric
design across Riyadh, KSA

9 Certifications
Autodesk & Niqat BIM certs
Revit · Navisworks · BIM Mgmt
Coordinator · Implementation

30,000 Sites
Heritage documentation project
architectural identity study
& preservation recommendations

BIM CORE COMPETENCIES

- **BIM Modelling & Family Creation — Revit (Architecture + Structure)**
- Clash Detection & Model Coordination — Navisworks Manage
- IFC Preparation & BIM Submittal Management
- 4D BIM Scheduling — Synchro Pro
- BIM Standards: ISO 19650 / LOD Framework
- Multidisciplinary Coordination (Arch, Structure, MEP, Low Current)
- RCP Design & Coordination
- Room Layout Sheets (RLS) & Architectural Packages
- BIM Implementation Planning & Management

ADDITIONAL COMPETENCIES

- Road & Infrastructure Design — AutoCAD Civil 3D, iRAP/SR4S
- Structural Analysis — Prokon, ETABS
- Architectural & Interior Design
- Landscape Design — Hardscape & Softscape
- Project Management — PMP Certified
- 3D Visualisation — SketchUp, Lumion, V-Ray

EDUCATION

M.Sc. Project Management — In Progress
Al-Zaytoonah University of Jordan (ZUJ)
Expected Graduation: 2027

B.Sc. Civil Engineering
Al-Zaytoonah University of Jordan (ZUJ)
Graduated 2024

Diploma — Architectural Engineering & Interior Design
Al-Balqa' Applied University (BAU)
Graduated 2021

BIM CERTIFICATIONS

- **BIM Management — Autodesk**
- **BIM For Consultants — Autodesk**
- **BIM For Contractors — Autodesk**
- **BIM Coordinator — Niqat**
- **BIM Planning — Niqat**
- **BIM Documenter (Structural & Architectural) — Niqat**
- BIM Modeler— Niqat
- BIM Implementation — Autodesk
- BIM For Operators — Autodesk
- Revit — Autodesk
- Navisworks Manage — Autodesk
- AutoCAD & AutoCAD Civil 3D — Autodesk

PROFESSIONAL EXPERIENCE

RUBA Engineering Co.
Amman, Jordan

Oct 2022 – Jan 2024

BIM Engineer — King Abdullah Security Forces Medical Center (Riyadh & Jeddah)

- Project scale: 500,000 m², 1,400 beds — one of the largest healthcare BIM projects in Saudi Arabia; scope covered full BIM modelling, coordination, and IFC submittal delivery.
- Reviewed and validated multidisciplinary BIM models; managed end-to-end clash detection in Navisworks and resolved comments from Consultant, Client, MEP, and Contractor teams.
- Designed and coordinated Room Layout Sheets (RLS) for all building levels in Revit; developed and maintained project-specific Revit families to client standards.
- Led Architectural RCP coordination with SHAKER GROUP (MEPF) and ICS (Low Current) in Revit — produced fully annotated, IFC-ready drawings for official submittals.
- Delivered comprehensive architectural packages: space planning, annotation layouts, finishes layouts, furniture layouts, door hardware strategy, details and enlargements.
- Acted as team lead for RCP canvas design across all levels, ensuring cross-discipline coordination and zero clashes prior to submittal.

Consolidated Consultants for Engineering & Environment
Riyadh, Saudi Arabia · Full-time

Sep 2024 – Present

Civil Engineer — Road Safety & Infrastructure

- Leading comprehensive traffic safety study for 300+ school and mosque zones across Riyadh using iRAP (SR4S) methodology.
- Analysed speed and traffic volume data to quantify risk levels and prioritise geometric intervention sites.
- Designed road enhancements, signage schemes, and pedestrian safety measures in compliance with Saudi Traffic Engineering standards.
- Produced technical drawings in AutoCAD Civil 3D for submission to Riyadh Municipality.

Architectural Engineer — Landscape & Heritage Documentation

- Designed hardscape and softscape landscape elements for road-related infrastructure projects per Riyadh Municipality specifications.

- Contributing to a large-scale Residential Heritage Documentation Project — recording, documenting, and conducting in-depth architectural study of 30,000 heritage sites across Saudi Arabia.
- Delivering evidence-based preservation and restoration recommendations aligned with national heritage conservation standards.

Salaymeh Group Construction Company
Jordan & Saudi Arabia

Jan 2024 – Jul 2024

Site Engineer / Architectural Consultant

- Supervised construction of a palace landscaping project (Airport Road, Amman) and a chalet resort complex in Ain Jana, Ajloun.
- Delivered interior design package for a residential apartment in Riyadh and designed a 1,700 m² steel-structure date store in Al-Qassim.
- Developed public safety plans (fire exits, suppression, first-aid) for commercial buildings in Riyadh and Jeddah.

Douar Architects and Engineers
Amman, Jordan

Jan 2021 – Oct 2022

Architectural Engineer

- Designed three modern villas in Dahiyat Al-Nakheel, Amman using AutoCAD and Revit; supervised two residential buildings in Marj Al-Hamam.
- Delivered photorealistic 3D visualisations and walkthroughs using Lumion and V-Ray.
